

URBAN DREAMS

SUBSTANCE USE EVALUATIONS

Our weekend OWI jail diversion program is an alternative to jail for people convicted of first-offense operating while intoxicated.

Along with being an alternative to jail, our program provides the mandatory Iowa Department of Transportation Drinking Drivers Education training over 48 consecutive hours, all in one weekend. **COURT APPROVAL IS A MUST TO ATTEND.** Time spent at our program will count as the mandatory two days in jail. All instructors are certified by the Prevention Research Institute in compliance with the Iowa Department of Transportation's requirements for driver's license reinstatement. We teach the Prime for Life curriculum.

Substance use evaluations are available for an additional fee of \$125. If you need to complete this evaluation in addition to your weekend OWI class, we can help! The evaluations are done over a video Zoom call and take approximately 1 hour with our Iowa Certified Alcohol and Drug use Counselor, Erin Maeder. Following the completion of your evaluation and depending on the outcome/recommendations, we will either refer you to the appropriate treatment provider near you offering the recommended level of care or file to the DOT that you have met the requirements on your evaluation if there is no treatment recommended!

Please be aware that the OWI class and the Evaluation are two separate services. The cost of the evaluation is not included in your cost for the OWI class. If this is something you are interested in please contact our counselor at the phone/email provided below.

Thank you for choosing Urban Dreams.
